Freelance · Open to remote work (UTC+3) and to relocation abroad

SUMMARY

Freelance Full Stack Developer with 5+ years of experience in IT. I also support five companies as an Odoo consultant (configuration, development, support, training). I design and deliver websites and web applications remotely for clients in France, including an online booking application (React, Supabase) and the complete rebuild of an AI agents SaaS company's website. Previously, I evolved an HR application used by companies of 300 to 2,000 employees and helped migrate it to .NET and React, built REST APIs and integrations (Sage 100cloud CRM), and customized the Odoo ERP in Python. Two years in information security and compliance at Webhelp got me used to the audit requirements of international clients.

TECHNICAL SKILLS

Languages: C#, Java, TypeScript, JavaScript, Python, PHP, SQL, HTML/CSS

Frameworks: .NET, Spring Boot, Spring Security, JPA/Hibernate, React, Next.js, React Native, Vue.js, Node.js/Express, Odoo, Tailwind CSS

Data: SQL Server, PostgreSQL, MySQL, Oracle Database, MongoDB, Redis, Supabase, Firebase

APIs & integration: REST APIs, JWT authentication, application integrations, data synchronization, Sage 100cloud CRM

DevOps & tools: Git, GitHub Actions, Docker, Linux, Nginx, Maven, Vite, Jira, Postman, Figma, Webflow

Security & compliance: access and permission management (IAM), compliance controls, client audits, security awareness training

Practices: requirements analysis, technical design, testing, deployment, corrective and evolutive maintenance

PROFESSIONAL EXPERIENCE

Freelance Full Stack Developer and Odoo Consultant — Self-employed (sole proprietorship)
10/2026 – Present · Antananarivo, Madagascar · remote

- Harrys Studio (nail salon, Lagny-sur-Marne, France): designed and built the entire website, with online booking (availability calendar, choice of time slot and technician), services, gallery, customer reviews, login area and legal pages (React, Vite, Supabase).
- Agentova.ai (French SaaS company providing AI agents for small businesses): rebuilt the entire marketing website and moved its design from a dark to a light theme (Webflow).
- Odoo consultant for 5 companies (agriculture, transport, real estate, import, essential goods distribution): configuration, custom module development, user support and training.
- Fully remote web engagements for clients in France: requirements gathering, development, go-live and ongoing updates.

Odoo Developer (Python) — KASIA Consulting
06/2026 – 09/2026 · Antananarivo, Madagascar · Permanent contract

- Developed and customized Odoo modules in Python to meet clients' business needs.
- Analyzed clients' business processes and adapted the ERP accordingly.
- Handled application maintenance and resolved user-reported issues.

Full Stack Developer — OPTIMADA
09/2025 – 05/2026 · Antananarivo, Madagascar

- Maintained and evolved RADIAN, an HR application used by client companies of 300 to 2,000 employees (C#/.NET, React, TypeScript, SQL Server).
- Took part in migrating RADIAN from a PHP codebase to a .NET, React and SQL Server architecture.
- Built many business modules: employee records, leave, time tracking, scheduling, recruitment and approval workflows.
- Designed and built a customer portal in Java Spring Boot and React, synchronized with Sage 100cloud CRM.
- Developed REST APIs and application integrations with SQL Server data synchronization.
- Worked across the full development lifecycle (analysis, design, development, testing, deployment), tracking tasks in Jira.

Logs Administrator — Client Point of Contact — Webhelp Madagascar (Concentrix group)
08/2022 – 08/2024 · Antananarivo, Madagascar

- Served as the client's direct point of contact for a team of 3 logs administrators.
- Audited user accounts, permissions and information system access for about 500 employees.
- Trained employees on IT security policies, operational risks and compliance requirements.
- Represented the IT team in 2 consecutive annual client audits, both passed, notably on the technical side.
- Tracked compliance indicators and drove corrective actions; helped reduce information security risks.

Customer Advisor — Technical Support — Webhelp Madagascar (Concentrix group)
12/2020 – 08/2022 · Antananarivo, Madagascar

- Diagnosed and resolved customers' technical and IT issues.

IT Manager — Phénix Madagascar
02/2020 – 09/2020 · Antananarivo, Madagascar

- Developed a web application for staff management.
- Administered the company's CRM applications and handled IT maintenance.

PERSONAL PROJECTS

- **LiveERP:** React, TypeScript, Supabase, Tauri — ERP for live-stream selling (Facebook, TikTok): purchasing, item-by-item checks, live console, parcels, couriers and reports; RLS security tested in SQL, CI.
- **Fotoanako:** React, TypeScript, Supabase — white-label online booking for salons and spas: storefront, booking, admin, loyalty and automated emails.
- **Révisions QCM:** Next.js, PostgreSQL, AI APIs — generates graded multiple-choice quizzes from a PDF course, with automatic fallback across several AI providers.
- **Scolaria:** React, TypeScript, Supabase — multi-school management SaaS: students, timetables, grades, fees and attendance.

EDUCATION

Bachelor's degree (Licence) in Computer Science — IT University (Information Technology), Antananarivo, Madagascar, 2026

Scientific baccalaureate (série C) — Lycée Moderne Ampefiloha, Antananarivo, 2017
